### **THE CHALLENGE:**

This Fine Foods company had concrete floors that were continually subjected to constant spills, organic and fatty acids. Additionally, this area is frequently cleaned using high heat wash downs.

### **THE STONHARD SOLUTION:**

The Stonhard team suggested Stonclad UT. This self-priming, urethane mortar and urethane coating installs quickly with low odour and rapid cure.

StonClad UT expedites shutdown schedules and allows plants to return to their production on time. It also shares other high performance qualities associated with the Stonclad group of products, including excellent chemical, abrasion and impact resistance. Stonclad UT is an economical system, providing long-term cost-effectiveness over its service-life.
