

OC Transpo, St. Laurent Station | Ottawa, Ontario

PROJECT: OC Transpo | **AREA:** Station Walkways, Platforms, Ground, Mid & Tunnel Level Stairs, Holding Areas

PRODUCTS: Stonclad UT, Stonkote GS4, Stonshield HRI

OC Transpo serves nearly 370,000 riders each day with a fleet of over 1,000 buses and three trains. Their dedicated Transitway system runs from one end of Ottawa to the other, and is open only to OC Transpo and emergency vehicles providing quick, comfortable travel any time of day.

THE CHALLENGE:

The St. Laurent Station is one of OC Transpo's most integrated to its surroundings with direct indoor pedestrian access to the St. Laurent Shopping Centre. This flooring renovation project required a strong, durable system that would provide high performance due to the amount of daily pedestrian traffic and environmental exposure.

THE STONHARD SOLUTION:

The Stonhard Team installed a Stonclad UT flooring system over almost 10,000 square feet of the St. Laurent Station. 3,000 square feet of this area, located on the ground and mid-levels, are also coated with Stonkote GS4, while 6 sets of stairs on the ground, mid and tunnel-levels are covered with Stonshield HRI.

Stonclad UT is a dense, liquid-rich, self-priming, textured, polyurethane mortar system. It cures to an extremely hard, high impact resistant mortar which exhibits excellent abrasion, wear, temperature and chemical resistance characteristics.

Stonkote GS4 is a general service coating designed for use whenever a corrosion resistant, easily cleaned and maintained, high gloss coating is required. Stonshield HRI is a textured, slip resistant system that is safe, long-lasting, stylized and easy to clean.

Expect performance from start to finish. From design specifications, to project management, to the final walk through, Stonhard works with you to ensure complete satisfaction on every project.

A **turnkey approach** means you'll receive high quality products and installations consistently. From people, to products and services, quality and dependability are a constant with Stonhard.

STONHARD single source

The **single source warranty** is Stonhard's pledge of responsibility. Our Territory Managers and Field Engineers are dedicated to your satisfaction. Site supervision and service are standard across the country and around the world.

Each Stonhard project receives attention on every level — multi-phase or small projects, from start to finish. Our Territory Managers, Project Managers, and over 65 application teams, are your single source partners assuring quality control and integrated and flexible scheduling.
