

Collège de Rosemont | Montréal, Québec

PROJECT: Collège de Rosemont | **AREA:** Chemistry & Biology Labs

PRODUCTS: Stonshield SLT

Located in Montréal, Collège de Rosemont offers a unique and diverse set of educational programs and courses. The focus of this college is to renew its ability to create a climate conducive to learning, and offer a stimulating environment that engages the desire to learn and succeed.

THE CHALLENGE:

Collège de Rosemont underwent a renovation project that included an 8,000 square foot seamless flooring component for the Chemistry and Biology Laboratories.

Cost-effectiveness, durability and safety were the primary considerations for this renovation project.

THE STONHARD SOLUTION:

The Stonhard Team recommended our Stonshield SLT flooring system.

Safe, easy to clean with aesthetic appeal and design flexibility, Stonshield also offers ultra-slip resistant surfaces to ensure protection from slips and falls.

Stonshield SLT is a cost-effective, textured flooring system that is seamless, free flowing and ideally suited to research, educational, institutional and healthcare facilities.

Expect performance from start to finish. From design specifications, to project management, to the final walk through, Stonhard works with you to ensure complete satisfaction on every project.

A **turnkey approach** means you'll receive high quality products and installations consistently. From people, to products and services, quality and dependability are a constant with Stonhard.

STONHARD single source

The **single source warranty** is Stonhard's pledge of responsibility. Our Territory Managers and Field Engineers are dedicated to your satisfaction. Site supervision and service are standard across the country and around the world.

Each Stonhard project receives attention on every level — multi-phase or small projects, from start to finish. Our Territory Managers, Project Managers, and over 65 application teams, are your single source partners assuring quality control and integrated and flexible scheduling.
