

TELUS Spark Science Centre | Calgary, Alberta

PROJECT: TELUS Spark Science Centre | **AREA:** Creative Kids Museum

PRODUCTS: Stonshield HRI, Stonseal GS7

After a decade of planning, design and construction, TELUS Spark - Calgary's New Science Centre, opened its doors in the fall of 2011. TELUS Spark is a place for people of all ages and abilities to let go and embrace the desire to explore and discover science, technology and art.

THE CHALLENGE:

Calgary's new Science Centre has many different features and exhibit areas, including the Creative Kid's Museum. This area offers hands-on activities designed for children under nine and connects visitors to the power of creativity and curiosity in a playful, safe environment. The customer required a seamless flooring system that would be safe, easy to clean and also visually appealing.

THE STONHARD SOLUTION:

The Stonhard Team suggested a system of Stonshield HRI and Stonseal GS7.

Stonshield HRI is textured, safe flooring system that is long-lasting, stylized and easy to clean. It provides superior performance with an ultra-slip resistant surface, ensuring protection from slips and falls. Aesthetically, Stonshield also offers unlimited design capabilities and is available in a wide range of patterns and colours.

Stonseal GS7 is a high performance coating designed to improve cleanability, increase stain resistance and abrasion resistance. It helps ensure an easily cleaned surface for simple maintenance.

Expect performance from start to finish. From design specifications, to project management, to the final walk through, Stonhard works with you to ensure complete satisfaction on every project.

A **turnkey approach** means you'll receive high quality products and installations consistently. From people, to products and services, quality and dependability are a constant with Stonhard.

STONHARD single source

The **single source warranty** is Stonhard's pledge of responsibility. Our Territory Managers and Field Engineers are dedicated to your satisfaction. Site supervision and service are standard across the country and around the world.

Each Stonhard project receives attention on every level — multi-phase or small projects, from start to finish. Our Territory Managers, Project Managers, and over 65 application teams, are your single source partners assuring quality control and integrated and flexible scheduling.
