OUR SEAMLESS, POURED-IN-PLACE, LOW-MAINTENANCE FLOORS HELP DATA CENTERS KEEP DUST TO A MINIMUM

Stonhard manufactures and installs seamless floors that keep data centers running productively, without interruption or downtime. Our seamless floors are smooth, keep dust to a minimum, are easy to clean and are durable, impact and abrasion resistant. No waxing, no stripping and very little maintenance. Stonhard also specializes in ESD floor systems to eliminate damage caused by electrostatic discharge.

- **Data Halls**
- **Server Rooms**
- **Build Rooms**
- **Mechanical Rooms**
- **Storage**
- **POE Areas**
- **Corridors**
- **Restrooms**
- **Offices**

New construction or renovations, we offer a comprehensive range of long-term flooring options from self-leveling to troweled mortars. Stonhard has been a single-source provider of seamless floor protection for nearly a century. Our floors are available in a wide color palette, custom colors and finishes too. We work with you directly, from product selection and project management to final walk through. Have a data center, we have a solution. www.stonhard.com
