Stonhard Launches New Colors for Several Product Lines

November 1, 2018 — Stonhard, leading manufacturer and installer of seamless floors, is pleased to announce the recent launch of a new palette of colors for several product lines.

After evaluating customer needs and following contemporary design trends, Stonhard freshened its offerings with updated colors for Stonclad, Stontec, Stonres, Stonshield, and Stonglaze product lines. “These new options create a fresh look for any commercial or industrial space,” said Kendall Ellis, Director of Marketing, Stonhard.

Stonhard offers a broad range of standard colors for its epoxy, urethane, or methyl-methacrylate flooring systems. The updated color palettes now include more modern gray and warm tones as well as industry-specific favorites such as Cranberry in the Stonshield line for food and beverage.

In addition, Stonhard offers Stonglaze, seamless protection for walls. New Stonglaze colors are perfect for soothing environments like hospitals.

All new colors can be found on Stonhard’s website www.stonhard.com, along with updated color sheets for each product. In addition to standard offerings, custom color matching is available.

Stonhard offers a single-source warranty on both products and installation. With nearly 100 years of experience and thousands of finished projects worldwide each year, Stonhard is known for delivering high-performance floor, wall and lining systems. Our team of project engineers and construction management experts will evaluate your facility and work with you from start to finish in order to *meet all your requirements*.

For more information on Stonhard’s complete line of seamless, high-performance floor systems, visit us at www.stonhard.com or call 800.257.7953. Stonhard is a member of the United States Green Building Council.
