

# STONKOTE ESD

Stonkote ESD is a smooth, seamless, self-leveling conductive floor system designed to work in combination with ESD/static control programs to protect electronic environments. It is chemical and abrasion resistant, as well as easy to clean. A long-term floor solution for electronics assembly and manufacturing areas, pharmaceutical processing, data centers, aerospace assembly and any areas containing highly sensitive electronic equipment.

Colour matching available with additional lead time, minimum order requirements and a slight premium.  
Colour reproductions are as accurate as modern photography and quality printing methods can produce.
