STONHARD | FLOOR SOLUTIONS

Sheldon M. Chumir Health Centre | Calgary, Alberta

PRODUCTS USED:
• STONRES RTZ

The Calgary Health Region is one of the largest, fully-integrated, publicly-funded health care systems in Canada. The Sheldon M. Chumir Centre, the latest project for the CHR, replaced Health on the 12th, formerly the Colonel Belcher Hospital.
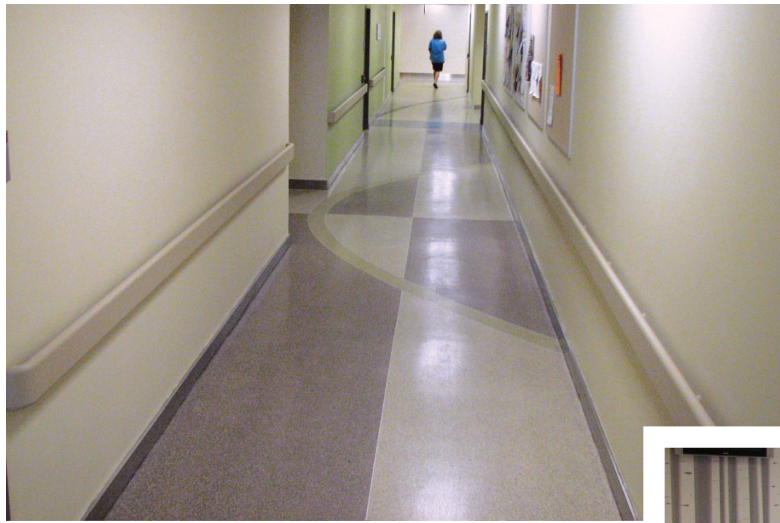

THE CHALLENGE:
The Sheldon M. Chumir Health Centre required a flooring system that would not only provide superior performance, but also an original, aesthetic appeal. Environmental and acoustic qualities were extremely important factors in selecting the appropriate flooring solution for this facility.

THE STONHARD SOLUTION:
The Stonhard team recommended using Stonres RTZ; a decorative, UV-resistant, resilient urethane flooring system.

Stonres RTZ was installed to over 9,000 square feet in the main floor entrance way and lobby area. This easy to clean, seamless system is infused with rubber aggregates to provide exceptional acoustic efficiency and ergonomic comfort. Stonres RTZ is ideal when both aesthetics and durability are important. This flooring system is an excellent, cost-effective solution to terrazzo.

THE STONHARD DIFFERENCE

Stonhard is the unprecedented world leader in manufacturing and installing high-performance polymer floor, wall and lining systems. Stonhard maintains 300 Territory Managers and 175 application teams worldwide who will work with you on design specification, project management, final walk through and service after the sale. Stonhard's single-source warranty covers both products and installation.

THIS HEALTH CENTRE REQUIRED A FLOORING SYSTEM THAT WOULD PROVIDE SUPERIOR PERFORMANCE AS WELL AS HAVE EXCELLENT ACOUSTIC QUALITIES.
