

TECHNICAL SUPPORT / LAB TECHNICIAN

STONHARD

STONHARD, a subsidiary of RPM, has been the leading manufacturer and installer of high-performance, state of the art, seamless floors and lining systems for commercial and industrial markets for nearly a century. Due to continued growth, we currently have an immediate opportunity for a **Technical Support/Lab Technician** in our Whitby location.

Why Work for Stonhard?

We are the global leaders in this marketplace, and passionately believe that our success is created because of the great people who make it happen. We are a single source company committed to our customers. We design, engineer and provide cost effective solutions, helping to maintain and enhance existing facilities and infrastructure, while planning and specifying for new projects.

During a global pandemic, Stonhard has been able to continue our high level of service to our customers needs which has deemed us an essential service provider.

Responsibilities:

- Product testing and assessment.
- Create detailed lab reports and manage long term testing protocols.
- Provide technical demonstrations and occasional field support on critical projects.
- Review specifications to create standard and custom samples.

Qualifications:

- CET or Lab work experience
- NACE or SSPC certification is an asset.
- Experience with material testing including taber abrasion and compression testing is an asset.
- Comfortable with power tools and chemicals.
- Construction experience
- Proven computer literacy
- No allergies to resin a must
- Valid Driver's Licence
- Ability to multi-task and prioritize

Benefits:

We recognize people as our most valuable asset and offer a competitive salary with benefits. Our package includes a salary and bonus program with expenses, health and dental coverage, life insurance and an RRSP program.
